***Allowable Subject Matter***

1. Claims 1-8 are allowed over the prior art.
2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is the overall claimed combination of a stack of absorbent article being individually wrapped and having a lid part and container part, where the lid part on one article is attached to the wrapping cover of another article by a releasable attachment that is stronger than an attachment between the lid part and the container part. Applicant's remarks filed 7/5/06 are persuasive. Applicant argues at page 2, Wilson describes reclosable plastic bags where the adhesive that is used to close an individual bag is the same adhesive used to adhere separate bags in contrast to the present invention which uses two different attachments – one to close the wrapping cover around an individual absorbent article and one to adhere a first and second absorbent article together in a stack. Additionally, the limitation of the two attachments differing in relative strength is neither anticipated nor rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacqueline F. Stephens whose telephone number is (571) 272-4937. The examiner can normally be reached on Monday-Friday 9:00-5:30.
